- March 28, 2015 8:00 AM - 2:00 PM SEDC (lunch will be provided)

Instructors

Dr. Renae Seegmiller and Rita Heagren

Content

The goals of the Statistics course are to:

1. Develop a deeper content knowledge around the statistics and probability standards in secondary mathematics courses
2. Consider essential understandings for the learning of statistics
3. Engage in tasks and analyze the place of those tasks in classroom work
4. Integrate the Standards for Mathematical Practices as an essential part of student learning
5. Create a community of learners throughout the Southern Utah area
