

Southwest Educational Development Center

Professional Learning Opportunities from SEDC

Professional Learning, Not Just Professional Development

SEDC, the Southwest Educational Development Center, is a Utah regional service center whose mission is to meet the needs of rural students and teachers, promote achievement, and provide for economy and efficiency in the cooperative delivery of educational services that are identified and requested by member schools.

SEDC is proud to provide many different forms of professional learning opportunities to the educators in our member districts and charter schools, including anytime customized technology integration workshops in schools, various conferences throughout the year, as well as endorsement courses in reading, math and STEM via interactive video conferencing (IVC).

Our Educational Technology Endorsement Program (ETEP) offers completely online courses for teachers.

Educators can learn and engage anytime, anywhere, with quality curriculum designed to enhance their instruction and pedagogy. Learn more at sedck12.org/etep.

We have a wide assortment of Classroom Toolboxes for checkout. We also print posters and have a large library of educational video titles for checkout, and many other media services.

Best of all, SEDC provides all of these services to our member districts and charter schools for NO ADDED COST above your membership fee (posters not included).

On the following page we will list the vast array of topics SEDC can provide to your educators.

Have a look!
