PROFESSIONAL LEARNING,
PERSONALIZED APPROACH

SEDIC, the Southwest Educational Development Center, is a Utah regional service center whose mission is to meet the needs of rural students and teachers, promote achievement, and provide for economy and efficiency in the cooperative delivery of educational services that are identified and requested by member schools.

Our Educational Technology Endorsement Program (ETEP) offers completely online courses for teachers. Educators can learn and engage anytime, anywhere, with quality curriculum designed to enhance their instruction and pedagogy. Learn more at sedck12.org/etep.

We have a wide assortment of Classroom Toolboxes for checkout. We also print posters and have a large library of educational video titles for checkout, and many other media services.

Best of all, SEDC provides all of these services to our member districts and charter schools for NO ADDED COST above your membership fee (posters not included).

On the reverse you’ll learn about the vast array of topics SEDC can provide to your educators.

Have a look!

- **Track PD Hours in your School or District with MIDAS** from USBE

The biggest addition to our professional learning offerings is the Adobe Creative Cloud, which is now available to all educators in Utah AND all 7-12th grade students for use at school and at home as well. This is a software package that professionals spend hundreds of dollars per year to access, and it’s available to Utah schools for free!

Adobe Creative Cloud

Where to start? Adobe Spark! Spark comprises three tools: Video to get your students telling their stories with photos, clip art and video, Page to easily craft a stunning web site and Post to create beautiful custom graphics. The Spark tools can be used in ANY classroom since they are all **web-based**, need **no software installed** and **work well on Chromebooks** as well as mobile devices.

CUSTOMIZED-ANYTIME-PERSONAL
