EDTECH ENDORSEMENT

Educators are increasingly expected to exhibit skills and knowledge of using technology to enhance student learning. On July 1, 2023, the traditional path for the Educational Technology Endorsement Program (ETEP) was replaced with a Competency-Based approach. If you can demonstrate your skills and knowledge, we can show you how to earn the endorsement.

LEARN FUNDAMENTALS OF:

- Instructional Design and Pedagogy
- Digital Citizenship and Information Literacy
- Developing 21st-Century Learners
- Professional Growth and Leadership

SOUTHWEST EDUCATIONAL DEVELOPMENT CENTER

ETEP now open for registration

If you still ***need*** these skills in your toolkit, we have a new course-based path to the endorsement. Just 12 total credits!

Four asynchronous courses, start anytime, and complete at your own pace. SEDC will be there to guide you along your learning journey.
